Software Engineer with a background in customer service and administrative experience who enjoys building intuitive, responsive, and accessible websites. Looking to bring strengths in communication, problem solving and innovation into a role at your company.

Technical Skills

Languages: TypeScript, JavaScript, CSS, HTML, SQL, NoSQL

Applications: Heroku, MongoDB, MySQL, WordPress, Azure DevOps

Tools: React, Express, Node, AJAX, Handlebars, React Bootstrap, Bootstrap, Foundation, UIKit, Material UI

Experience

Software Development Engineer | iSoftStone, Inc, Kirkland, WA

May 2021-Present

- Front-end developer on Microsoft projects on Microsoft docs external website, building UI features and fixing accessibility bugs with TypeScript and CSS
- Produced professional Web UI image gallery using React, React Bootstrap, and connecting to a Nuxeo database API
- Created accessible data table using HTML, CSS, and JavaScript and integrated WordPress plugins for a client website
- Completed Section 508 Trusted Tester Certification for accessibility testing

Administrative Assistant | Quantum3 Group LLC, Kirkland, WA

September 2020-May 2021

- Thoroughly research and monitor accounts to pinpoint specified criteria to assist in management decisions.
- Accurately process a variety of legal paperwork efficiently and under deadline.

Travel Counselor | AAA Washington, Lynnwood, WA

December 2017-August 2020

- Collaborate with clients to research and book domestic travel, manage payments and associated paperwork.
- Received "Einstein Award" for Innovation in 2018 and 2019; nominated by my peers.
